

ORIGINAL U.K.C. REGISTERED PLOTS

The Plott Hound had been in existence for over 200 years when the United Kennel Club was asked by a number of owners and fanciers of the breed to officially recognize this fine Coon and Big Game Hound as a distinct type and breed. The United Kennel Club made a study and did research on this hound and a breed standard was adopted. On May 28, 1945, registration papers were issued on the first Plott Hound registered, Bess Plott, and this was followed by the registration of several other Plotts. On February 12, 1946, the United Kennel Club officially opened registration of the Plott Hound on their records and subsequently most of the remaining pure bred Plotts were officially placed on record.

We have compiled a listing of the original registered Plotts and these are considered to be the primary foundation stock of the registered Plott Breed. Since these first hounds were single registered there have been numerous other Plotts single registered and these are considered to be as purebred as any of these original registered Plotts. Most of the Plotts that were later registered were either direct descendents of these original registered Plotts or their ancestry could be traced back to the same ancestors as the original registered Plott Hounds.
